#### 4. Successes

*Please list the key successes in the reporting period*

First deliverables have been achieved. We've successfully included our new member Jonas Riegel (GE) in our team. We had a successful physical group meeting in Malmø where the work of the group was discussed and developed further. The group benefitted greatly from the meeting both in terms of team building, learning and product development.

#### 5. Challenges

*Please list the key challenges in the reporting period*

We've had some difficulties finding time to participate in Global Support and events but we've managed most of the time so far. It is, however, fundamental to maintain a good volunteering environment that expectations about participation and at what level is communicated clearly and as soon as possible to the group members.

## **6. Content of the work**

*Please use this space if you wish to share aspects of the content of the work undertaken or to be undertaken or on-going aspects worth noting*

When I look down the list of Global Support provided by the Region I notice that only a minority of the support delivered is from the two strategic priority groups, Youth Empowerment and Diversity & Inclusion. I think it is of corner that these two more 'political' groups are not sought more after, I have discussed with the other coordinates how to mainstream the strategic priorities in their work. However, I think we need to more proactively promote these two key aspects of the Scout Plan if we want to achieve the highest impact during the next couple of years. In the YESP group we've discussed to make concise and sexy Youth Empowerment Pocket Primer for the representatives of the region, being committee members, other working group members etc, to help promote the strategic priorities. The committee members, especially, could play a key role in promoting the two priorities. Any reflections from the committee on how we can best support this from the YE group would be very helpful in our work to implement the regional scout plan.
