SEMINAR ON GROWTH IN SCOUTING

15-18 FEBRUARY 2018, LATVIA

Invitation to the European Region's **SEMINAR ON GROWTH IN SCOUTING**

Riga, Latvia | 15-18 February 2018

Growth is very important and relevant segment for European Scouting.

It is part of our regional plan where we commit ourselves that "by 2019, there will be a significant increase in the number of members and in the quality of Scouting undertaken in the European Region" and it is part of our contribution to the global vision where we "will actively contribute to the development of World campaigns and initiatives to propose growth of 5% year on year in each and every NSO in Europe.

Many Scout associations and organisations across Europe are putting tremendous effort in the area of growth: many have achieved remarkable results, many are just starting and many are desperately looking for solutions and best practices.

All European NSOs completed the Growth Commitment survey prior to the World Scout Conference earlier this year and the requests for assistance are being clarified and compiled at present.

To address these questions and working towards the implementation of the Regional Scout Plan, the European Scout Region of the World Organization of the Scout Movement (WOSM) is organising the Seminar on Growth in Scouting where NSO/NSAs from all over Europe can meet, learn about the various aspects of Growth and share experiences, as well as ideas and knowledge regarding the growth in their NSO/NSAs.

Programme

The programme of the event will be spread over three days providing space and environment for discussions on understanding of Growth in a Scouting context, introducing the Organisational Development Approach of the European Scout Region, developing a common European understanding of Growth based on Vision 2023, developing Growth Strategies, developing action plans, as well as implementing actions, tools and platforms to support NSO/NSA Growth.

The main goals of the event are:

- To provide an understanding of the different approaches to Membership Growth in the context of Scouting;
- To equip leaders with the skills and knowledge needed to develop and manage Growth strategies and respective action plans;
- To strengthen the capacities of leaders and increase their potential to become active ambassadors for growth of their organisations;
- To develop a platform for future support and cooperation, using the Tailored Support Approach of WOSM and potentially develop the framework for a "NSO/NSA Growth Network".

Who should attend the Seminar on Growth in Scouting? (Participants' profile)

Members or prospective members of national or regional teams that support growth in their NSO/NSAs; Participants are expected to be able to communicate well in English and should be familiar with the use of electronic communication media (e.g. email, Facebook).
